

BAS Application Engineer

Mid-Atlantic Controls Corp. - Richmond, VA
Full-time

JOB TITLE: Application Engineer

JOB LOCATION: Richmond, Virginia

GENERAL SUMMARY:

Mid-Atlantic Controls, Corp. is looking for an experienced BAS or HVAC engineer that has 5+ years of experience and can hit the ground running.

SPECIALIZED SKILLS AND KNOWLEDGE:

- BS Degree in Mechanical Engineering
- 5 years of experience in commercial HVAC mechanical systems engineering, and/or HVAC control systems engineering.
- Experience in common computer programs like Microsoft Office, Visio, etc. are essential.

DUTIES AND TASKS:

- Application engineering of systems we sell to match the project plans and specifications or proposal requirements of our projects.
- Product selection and application.
- Assist the sales teams in proposing solutions to problems that our customers need to be solved as it relates to HVAC systems and the related building functions.
- Possible assistance in project management of systems in post design stage if that is of interest to the candidate.

WORKING CONDITIONS:

Work is typically performed on site or at the company office. Travel to customer site in varying weather conditions. Environmental condition in buildings varies.

The Company reserves the right to revise and alter this job description as needed.

Job Type: Full-time

Job Location: Richmond, VA
